General Notice 11

Date: July 17, 2009

To: All Personal

Subject: Vandalism and Trespassing

1. The Foundation prosecutes all incidents of vandalism.
2. The railroad buildings, grounds, right-of-way and tracks are private property. The public is allowed in designated areas at authorized times. If you find personnel in or on the facilities, approach them and inquire if they are part of one of our programs. If they reply no, explain that they need to be part of the program or leave the property. If the person refuses to leave contact Sheriff's Department and museum staff.
3. If you observe vandalism, immediately contact the Sheriff's Department and then approach the vandal. If possible try to keep the vandal on the property until the Sheriff's department arrives. If you discover vandalism after the fact notify the Curator.
4. In the case of trespass along the railroad right-of-way notify the Dispatcher. When there is no dispatcher contact the Sheriff's Department directly when it makes sense to do so. For example if a motorbike is speeding along the fill, it will most likely be gone before a Deputy can arrive, so don't call the Sheriff's Department. But if a vehicle is parked close to the track, then call the Sheriff's Department.
